

Assortment Boxes

In order to provide you with the hose clip which most adequately suits your needs, we have developed a wide range of hose clip assortment boxes.

The different diameters of clip are arranged in individual compartments, making it easy to find the appropriate size.

The sturdy plastic case is also very convenient for transporting the product. All Mikalor assortment boxes include the appropriate tool for assembling the clip in question. In the case of the worm-drive assortments, each case contains a flexible hex-socket screwdriver which can be used to tighten Mikalor worm-drive clips in all sorts of application zones.

The two ear clip assortment boxes contain a pair of side-closing ear clip pincers.

CONTENTS OF THE ASFA "L" (9 MM.) ASSORTMENTS

Part nº	Description
